## Chapter 1 : Prentice Hall The Biosphere Workbook Answer Key

Hydrosphere, atmosphere, geosphere, and biosphere. • the hydrosphere is the water portion of earth. • the atmosphere is an envelope of gases that surrounds earth. • the geosphere is the layer of earth under both the atmosphere and the oceans. it includes the core, the mantle, and the crust. • the biosphere is made up of all life on earth. Chapter 3, the biosphere (continued) section 3–3 cycles of matter how is the movement of matter through the biosphere different from the flow of energy? 3. matter moves through an ecosystem in . 4. chapter 3 the biosphere, se author: prentice hall created date: Biology ecology –the biosphere –chapter 3 packet 1 of 4 all living organisms depend on the natural world for vital nutrients, water, and shelter. Recycling in the biosphere (page 74) 2. how is the movement of matter through the biosphere different from the flow of energy? 3. matter moves through an ecosystem in . 4. what do biogeochemical cycles connect? the water cycle (page 75) 5. water can enter the atmosphere by evaporating from the leaves of plants in the process of . 6. The biosphere contains the combined portions of earth where all life exists. 3. a species is a group of organisms so similar to one another that they can breed and produce fertile offspring. 4. a community prentice hall created date: december 12, 1997 Energy flow in the biosphere, biology; miller and levine; prentice hall; 2006 same species living together biosphere the portion of the planet in which all life exists. organisms so similar to one another that they can breed and produce fertile offspring = \_\_\_\_\_ species The biosphere contains the combined portions of the planet in which all life exists, including land, water, and air (or atmosphere) b. levels of organization 1. biosphere 2. biome 3. ecosystem 4. community 5. population 6. individual section 3-1 section outline . go to section: prentice hall biology Chapter 3 the biosphere section 3 2 energy flow answer key.pdf free pdf download now!!! hydrosphere, lithosphere and biosphere. chemicals on earth are distributed among four major environmental compartments or biology the dynamics of life chapter tests with answer key prentice hall bridge page
